OBJECTIVE

To have a growth-oriented and challenging career, where I can contribute my knowledge and skills to an organization and enhance my experience through continuous learning and teamwork and further develop my abilities in the field of computer science.

PROJECTS

AUTO RENEWAL IN MOBILE GAMES (INTERNSHIP)

- This was an internship at TEESYNC TECHNOLOGY LIMITED, Hyderabad where my primary role was to develop an auto payment renewal feature for mobile games in Java.

SPEECH EMOTION RECOGNITION USING CNN

- The aim in this was to design a Machine Learning model that predicts the emotion of a person using voice sample.

FREELANCING WEB DEVELOPMENT EXPERIENCE

- Developed websites for various companies (Diffuse Media, Mr Boss Solutions,3 Stripe, SKEI Etc..)

WORK EXPERIENCE

Cognnox Intelligent Systems

Bangalore / January 2022 – Present
- Currently working here as a MERN Stack developer.

Ecross Technologies Private Limited (CarX)

Bangalore / July 2021 – December 2021
- I worked at CarX GPS company as a Full Stack Web Developer.

CERTIFICATIONS

- *IOT Workshop*, organized by I3INDIYA Technologies.
- *Basics of Computer Networking Using Cisco Packet Tracker* Workshop.

EXTRA CIRICULAR ACTIVITES

- *Event Management Assistant (Zero Discrimination Day)* – Made strategic alliances with partnering Universities to curb the spread against discrimination.
- Attended seminars on Cloud computing and Machine learning.
- Organized Alliance College of Engineering and Design Cultural Event in 2019.
- Won multiple competitive gaming events representing my college.
